# GOLSPORT 2024-2025

ELEVATE YOUR STYLE, UNLEASH YOUR POTENTIAL

# COMPANY GOLSPORT

**GolSport** is a Polish company whose heart beats to the rhythm of sports and a passion for creating top-quality sublimated clothing. Since 2015, we have been dedicated to delivering products that not only represent excellent quality but also support our local industry and economic development. We are also committed to environmental protection by implementing eco-friendly solutions at every stage of our production.

**Team:** Over the years, we have built a cohesive team of enthusiasts, designers, and tailors - a family of people who love sports and sportswear. This passion translates into the quality of our products.

**Sublimation Technology:** Since 2015, we have been developing an advanced machinery park that allows us to use sublimation technology at the highest level. Our prints are durable, colorful, and resistant to fading, ensuring that our clothing maintains a fresh look for many years.

**Product Range:** For over eight years, we have offered a wide range of sportswear, gadgets, and accessories. Additionally, we provide the opportunity to personalize products according to individual preferences. Our clothing is not just a tool for achieving sporting goals; it is also an expression of your style and individuality.

Why GolSport?

**Polish Quality:** Since 2015, our clothing has been entirely produced in Poland, guaranteeing reliability and attention to the smallest details.

**Durability:** The products we have been offering since the company's inception are an investment for the long term. Prints do not fade, and fabrics retain their properties even after numerous washes.

**Personalization:** Since 2015, we have given our customers the opportunity to create a product that perfectly reflects their preferences and style.

**Eco-friendly Solutions:** We are committed to environmental protection, incorporating eco-friendly solutions in the production of our products.

**GolSport** is not just a clothing brand; it is a story of values and quality that reflects Polish craftsmanship, dedication to local economic growth, and a commitment to our planet. Join our sports community, which has cherished quality, style, local production, and environmental consciousness since 2015.

Training pants are an excellent choice for individuals seeking comfort and style during physical activities. Elastic cuffs at the bottom of the legs provide a perfect fit and prevent the pants from shifting during intense exercises. Thanks to the tapered legs from the knees down, the pants remain loose in the upper part, allowing for greater freedom of movement during running, strength training, and other activities.

The high-quality material guarantees comfort and durability while maintaining proper body ventilation. Their unique design combines comfort with functionality, making them ideal for workouts at the gym as well as outdoor activities.

This cycling jersey with a zipper has been made from flexible fabric and is equipped with side panels that provide additional flexibility and comfort. Its carefully designed features make you feel comfortable during long and intense physical activities.

The zipper allows for easy ventilation control during your cycling adventures, and the flexible fabric ensures a perfect fit and comfort. The side panels add style to the jersey while increasing freedom of movement.

The rear pocket with compartments allows for convenient storage of essential items such as energy gels, keys, or a phone, making it ideal for long rides. The wide silicone tape at the bottom of the jersey ensures that it stays securely in place and does not shift, even during the most demanding rides.

Whether you're an experienced cyclist or a beginner, this jersey is an indispensable part of your gear, combining performance and comfort in an elegant package

# THERMOACTIVE MULTI SCARF

*Made in Poland*

Fabric: Micro-Grid 200 grams

100% poliester

Made from 200-gram material with a micro grid structure, this is an excellent accessory that will provide you with warmth and comfort in various conditions. It has been sewn using an autolap, which makes the seam soft and gentle on the skin, preventing any irritation.

The material on the inside is gently brushed, giving it exceptional softness and making it pleasant to the touch against the skin. At the same time, it maintains excellent thermal insulation properties, which means it retains warmth in cooler conditions, ensuring comfort when worn. This is not only a practical addition to your attire but also skin-friendly and an excellent choice for those who value both functionality and comfort. Whether you use it every day or during outdoor activities, it offers versatility and protection against the cold.

Fabric: BagCraft 200 grams

100% poliester

"A waterproof, durable, and tear-resistant shopping bag has been made from Bagcraft material with a weight of 200 grams. It is capable of holding a substantial amount of groceries due to its dimensions of 43 cm in width and 45 cm in height. Convenient, wide, and robust handles are located on the top edge of the bag. The handle length is suitable for carrying the bag over the shoulder or by hand. The bag is reusable, which means it can be used multiple times during shopping. This is an environmentally friendly solution as it helps reduce the use of single-use plastic bags.

## SUBLIMATION SHOPING BAG

*Made in Poland*

## MULTIFUNCTIONAL BACKPACK

*Made in Poland*

Fabric: BagCraft 200 grams

100% poliester

A backpack made of bagcraft fabric, with dimensions of 41 cm in height and 33 cm in width, equipped with strong and thick cords, is a convenient and versatile way to carry your belongings. The bagcraft material ensures that it is waterproof, durable, and resistant to wear and tear, making it suitable for various activities and weather conditions. This drawstring backpack is versatile and suitable for various purposes. You can use it to carry sports equipment, books, spare clothing, or as a backpack for outdoor excursions. Similar to the shopping bag, this drawstring backpack is reusable, contributing to environmental protection by reducing the use of disposable plastic bags. The adjustable cords also serve as shoulder straps, allowing for comfortable carrying on the shoulders.

Fabric: Double-Faced 400 grams

60% poliester 40% cotton

The "Double-Faced" towel with a weight of 400 grams is a unique product that offers the option of one-sided printing on the microplush side. This feature allows for personalization and giving the towel an individual character. The other side of the towel is made of white cotton, adding elegance and versatility to it. This versatile towel is available in four different sizes, making it suitable for various purposes. Here are the available sizes:

160x80 cm: This size is perfect for beach use or as a luxurious bath towel. It provides a large surface area for comfortable relaxation.

140x70 cm: This is a popular size for both beach and bathroom use. It is ideal for wrapping around the body after a bath or shower.

100x50 cm: This medium-sized towel is practical and handy. It is suitable for use in the bathroom, at the gym, or as a hand towel.

50x30 cm: This compact size can be used as a hand towel, for workouts, or for travel. It is lightweight and easy to carry.

The 400-gram material ensures high quality and durability for the towel, and its double-sided construction offers unique personalization opportunities. This "Double-Faced" towel is a combination of style, comfort, and functionality, meeting diverse user needs.

## SUBLIMATION TOWEL
